

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 111220786-1781-01]

RIN 0648-XC811

Fisheries of the Northeastern United States; Summer Flounder Fishery; Commercial Quota Harvested for the Commonwealth of Massachusetts

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS announces that the 2013 summer flounder commercial quota allocated to the Commonwealth of Massachusetts has been harvested. Vessels issued a commercial Federal fisheries permit for the summer flounder fishery may not land summer flounder in Massachusetts for the remainder of calendar year 2013, unless additional quota becomes available through a transfer from another state. Regulations governing the summer flounder fishery require publication of this notification to advise Massachusetts that the quota has been harvested and to advise vessel permit holders and dealer permit holders that no Federal commercial quota is available for landing summer flounder in Massachusetts.

DATES: Effective August 23, 2013, through December 31, 2013.

FOR FURTHER INFORMATION CONTACT: Carly Bari, (978) 281-9224, or Carly.Bari@noaa.gov.

SUPPLEMENTARY INFORMATION: Regulations governing the summer flounder fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota that is apportioned on a percentage basis among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.102.

The initial total commercial quota for summer flounder for the 2013 fishing year is 11,793,596 lb (5,349,575 kg) (77 FR 76942, December 31, 2012). The percent allocated to vessels landing summer flounder in Massachusetts is 6.82046 percent, resulting in a commercial quota of 804,377 lb (364,866 kg). The 2013 allocation was adjusted to 791,236 lb (358,899 kg) after deduction of research set-aside, adjustment for 2012 quota overages, and an adjustment for a quota transfer between states.

The Administrator, Northeast Region, NMFS (Regional Administrator), monitors the state commercial quotas and determines when a state's commercial quota has been harvested. NMFS is required to publish notification in the Federal Register advising and notifying commercial vessels and dealer permit holders that, effective upon a specific date, the state's commercial quota has been harvested and no commercial quota is available for landing summer flounder in that state. The Regional Administrator has determined based upon dealer reports and other available information that Massachusetts has harvested its quota for 2013.

Section 648.4(b) provides that Federal permit holders agree, as a condition of the permit, not to land summer flounder in any state that the Regional Administrator has determined no longer has commercial quota available. Therefore, effective 0001 hours, August 23, 2013, landings of summer flounder in Massachusetts by vessels holding summer flounder commercial

Federal fisheries permits are prohibited for the remainder of the 2013 calendar year, unless additional quota becomes available through a transfer and is announced in the Federal Register. Effective 0001 hours, August 23, 2013, federally permitted dealers are also notified that they may not purchase summer flounder from federally permitted vessels that land in Massachusetts for the remainder of the calendar year, or until additional quota becomes available through a transfer from another state.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 et seq.

Dated: August 15, 2013.

James P. Burgess,
Acting Deputy Director,
Office of Sustainable Fisheries,
National Marine Fisheries Service.
